PEEK INTO OUR CLASSROOM

Reading: Last week we finished reading *Frindle*. Students will be completing a final project related to this story as well as writing a letter to a character.

Writing: Our parts of speech focus this week are nouns and verbs. We will discuss past, present, and future verbs as well as helping verbs. We will learn how nouns do the action of a verb.

Bible: Focus is on the days 6-7 of creation, Adam & Eve, and how God saw his creation.

Math: 3rd: Focus this week is on perimeter and area.

Math 4th: Focus is on true or false number sentences, parenthesis in number sentences, and open sentences.

Science: Dr. Biome will discuss the importance of habitats, needs of animals and some adaptations of animals.

HOMEWORK CORNER

Bible: Genesis 1:27-28 is due Fri., Nov. 10th.

3rd Math: HL 3.2 & 3.3 due on Wed.; HL 3.4 due on Thurs.

4th Math: HL 3.9 & 3.10 due on Wed., Unit 3 Review due on Thurs., and HL 3.11 due Fri.

Reading: Encourage your child to read at least 15 minutes each night. Record minutes on November logs.

Writing: Noun worksheet due on Wed.

*Please check planner for changes!

*Parent signature is required on homework.

Dear Parents,

How can you number the stars in the sky? Only God knows this immense number, but we can marvel at their wonder. Last week, students had a chance to visit an inflatable planetarium and view the constellations as the Greeks and Native Americans saw them. We also had a chance to create the phases of the moon out of Oreos and create a constellation viewer. Just a small way we can participate in the wonders of God's creation.

This week Tuesday Team 2 will visit the high school science lab to use some special tools to measure water and record their data. We enjoy our partnership with West Michigan Lutheran High School.

If you have any questions, please feel free to call me at school, or at home (724-1862) or email me at komanchi@anchorpointchristian.org. Thank you so much for partnering with me in the education of your child/children.

In Christ,

Kimberly Omanchi

SKILL CORNER—BIG NUMBER SCAVENGER HUNT

You may not be able to count the stars, but you can do a big number scavenger hunt with your child. Look around for large numbers on containers in your cupboards, on billboards around town, on the odometer of your car, or in books and magazines. Have your child record and read these numbers to you. See if they can identify the place value of different digits. Have your child turn in the record of numbers for a special treat this week.
